## Drug Related Problem (DRP) Documentation Form

Patient Initials: \_\_\_\_\_ DOB: \_\_\_\_\_ RX #: \_\_\_\_\_ Site: \_\_\_\_\_

Date: \_\_\_\_\_

**Category:**  Adverse drug reaction

- Calculation error/decimal point
- Compliance
- Dose too high
- Dose too low
- Drug-Disease interaction
- Drug-Drug interaction
- Drug-nutrient interaction
- Drug information
- Drug without indication
- Failure to receive drug
- Illegible RX
- Inappropriate indication
- Incomplete order
- Indication without drug
- Patient Allergy
- Rx violates legal requirements
- Suboptimal or unavailable dose form
- Suboptimal therapy
- Therapeutic duplication
- Wrong dosing frequency
- Wrong patient

**Drug Involved:** \_\_\_\_\_ **Disease Involved:** \_\_\_\_\_ **Prescriber Type:** \_\_\_\_\_

**Brief Description:** \_\_\_\_\_ (MD/DO, PA, NP,DDS)

---

---

**Status:**

- Resolved  Unresolved

**Type of RX:**

- Computer generated  Faxed  Preprinted  Telephoned by MD  Telephone by other  Written

**INTERVENTION**

**Recommendation:**

- D/C Drug  Add/initiate drug/device  Increase Dose  Decrease dose  
 Change dosage form/route  Change frequency  Recommend labs/monitoring  
 Other: \_\_\_\_\_

**Pharmacist Action:**

- Contact MD by phone  Patient education  Contact MD by fax  
 Contact nurse/secretary  Patient interview  Other: \_\_\_\_\_

**Resulting Action:**

- Clarified and dispensed
- Drug therapy added
- Form/route changed
- Educated prescriber
- Unknown
- Counseled caregiver
- Dose increased
- Lab/monitoring ordered
- Recommendation not followed
- Counseled patient
- Dose decreased
- No action require/info only
- Rx dispensed as written
- Drug stopped
- OTC rec.

**Patient Outcomes:**

- Patient responded
- ADR not resolved
- Requires follow-up (Follow-up date: \_\_\_\_\_)
- Patient did not respond
- Rec. not followed
- No response/no complications
- Unable to document
- ADR resolved

**Impact:**

- Info only
- Decreased drug cost
- Perceived impact on patient care
- Prevent ADR
- Increased drug cost
- Resolved ADR

**Recommendation Accepted?**

- Yes
- No
- Not known
- Time Required: \_\_\_\_\_

**Clinical Significance:**

- Neutral (depends on clinical interpretation)
- Very significant (averts organ dysfunction)
- Adverse significance
- Not significant (info only)
- Significant (improved/increased quality of care)
- Extremely significant (potentially lifesaving)
